

basis7 vital® – Royal jelly, flower pollen extract, different types of vitamin B and vitamin C

for a strong immune system and a healthy nervous system*

Prepare yourself for everyday life challenges – naturally. basis7 vital® is your daily companion for strength that comes from within.

In everyday life, it is not always possible to provide ourselves with everything we need through a healthy and balanced diet alone.

basis7 vital® provides you with your daily dose of extra vitamins and nutrients: Ingredients added based on science, strengthen you naturally from within – ensuring that you feel good throughout.

For easy intake and convenience, we deliberately opted for a liquid formulation and made sure that it is gluten-free, lactose-free and suitable for vegetarians.

Strong immune defence:

Our immune system constantly protects us from harmful effects caused by pollutants and pathogens. One of the most important ways to support it is to eat a healthy and balanced diet. But what if that is not enough?

With basis7 vital® you start off exactly there by providing your body with the daily extras it needs to support the immune system.*

Inner serenity and a healthy nervous system:

Whether it's stress from family life, work or leisure time – or like in many cases, everything at once: we often need to keep our nerves to deal with the daily challenges.

basis7 vital® can support you with this by combining the best of nature to strengthen you from within.*

*Vitamins B6, B12, C and folic acid contribute to the normal function of the immune system. Vitamins B1, B2, B6, B12, C, biotin and niacin contribute to the normal function of the nervous system.

Ingredients:

Flower Pollen Extract (33%), Honey, Water, Orange Juice Concentrate, Royal Jelly (3,3%), Maltodextrin, Vitamin C, L-Carnitine, Aronia Juice Concentrate, Sweet Rowanberry Juice Concentrate, Blueberry Juice Concentrate, Rosehip Fruit Concentrate, Elderberry Juice Concentrate, Herbal Carotenes, Niacin, Vitamin E, Pantothenic Acid, Preserving Agent: Potassium Sorbate, Vitamin B2, Vitamin B6, Vitamin B1, Acidifying Agent: Citric Acid, Folic Acid, Biotin, Vitamin B12.

Important notes:

- Do not exceed the recommended daily dose of 10 ml.
- Food supplements should not be used as a substitute for a varied diet and a healthy lifestyle.
- Keep out of reach of children.
- Don't consume any other (folic acid-containing) dietary supplements.
- Inform your doctor or the medical staff about the intake of biotin-containing dietary supplements before a laboratory test is performed.
- Once opened, store in the refrigerator and use within 10 days.

Each bottle contains 100 ml (120 g). This amount is equal to 10 recommended daily doses.
